

Tracked Mobile Impact Crusher

Product Introduction

DongMeng Tracked mobile impact crusher adopts unique designs such as heavy-duty rotor, large crushing chamber, thick impact plates, alloy high wear-resistant blow bar, hydraulic opening devices and etc. It has big crushing capacity and crushing ratio, low operating cost, and easy for maintenance.

Advantages and Characteristics

- Heavy blow bar design, larger feeding size, larger crushing ratio, higher capacity, and more cubical finished products.
- Hydraulically open the crusher body, easy and safe for maintenance and repair.
- Foldable side conveyor no need to be disassembled for transportation.
- The magnet/recirculation system/feeding system are optional.
- The intelligent wireless remote control is used to control the track walking, one person can operate the track unit up and down the flat trailer for rapid working site transition.
